

Dr. Manjunath Shetty

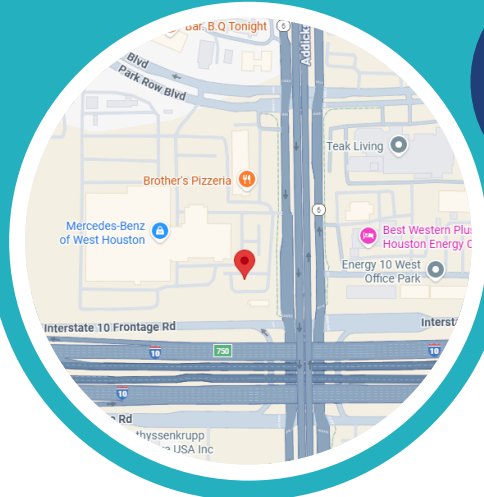

Fellowship trained and double board certified by the American Board of Anesthesiology in Interventional Pain Management and Anesthesiology

At Harmony Pain Management, our primary objective is to advance the delivery of evidence-based pain management through a multimodal and multidisciplinary framework individualized to patient-specific needs. Our clinical approach emphasizes symptom reduction, functional restoration, and quality-of-life enhancement. We integrate current best practices with emerging interventional methodologies to address the complex pathophysiology of pain. By employing advanced interventional techniques alongside pharmacologic, behavioral, and rehabilitative strategies, our goal is to achieve the best outcomes for every patient.
